ASK DR. ZAIBAK

IN WHAT WAY IS YOUR APPROACH CONSERVATIVE?

Employing an approach that seeks to eliminate the incorporation of local anesthesia, I rely on Invisalign and Lumineers, a type of veneer that requires very little drilling if any at all. My philosophy involves designing smiles in a biocompatible way, which is why I am drawn to Lumineers and have even been a guest speaker for the company. Lumineers are resistant to stains, reversible, contact lens-thin and great for masking smile imperfections.

HOW CAN A SMILE MAKEOVER MAKE SOMEONE MORE BEAUTIFUL?

We live in a youth-driven culture that adores beauty, and a sparkling smile is one of the first things people notice.

WHAT HAVE YOU DONE TO ENLIGHTEN THE PUBLIC ABOUT THE IMPORTANCE OF COSMETIC DENTISTRY?

I have appeared on ABC 7, WGN 9 and FOX News, and have contributed to the *Chicago Tribune*, *Chicago Sun-Times* and *Chicago* magazine.

WHY DID YOU BECOME A COSMETIC DENTIST?

I like that dentistry incorporates beauty, art and science.

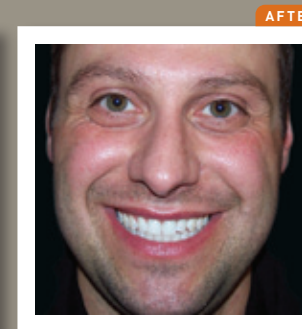

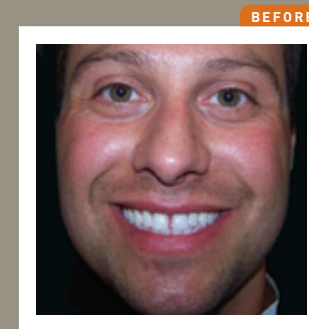

The hidden truth behind beautiful smiles

Honored by the Consumer Research Council of America as one of America's Top Dentists in 2010, Dr. Zaibak has been featured on national and local media and is now offering his advice in his new book, *The Hidden Truth Behind Beautiful Smiles*. The book contains a wide range of information to help consumers get the smile of their dreams from how to choose a cosmetic dentist and questions to ask to tips for a celebrity smile in two visits and modern innovations that provide patients with a better experience at the dentist office.

* Dr. Zaibak is a licensed general dentist in the state of Illinois.

CASE STUDY

"I had spaces in my teeth my whole life. I was so self-conscious of them, but never considered correcting them until I met Dr. Zack Zaibak. He recommended Invisalign® and Zoom®2. When I saw the 3-D imaging of what my teeth would look like before I even started, how simple it was and that it wouldn't interfere with my life, I asked, 'Can I start this now?' I wore the aligners just like Dr. Zaibak said to and was amazed as the spaces in my teeth got smaller and smaller until they disappeared. Now I get so many compliments on my smile that I only wish I could have done it sooner. As a result, I have the perfect smile I always wanted!"
